

PORTABLE FOOTBALL GOAL TP SPORT

REF. FUTRS010

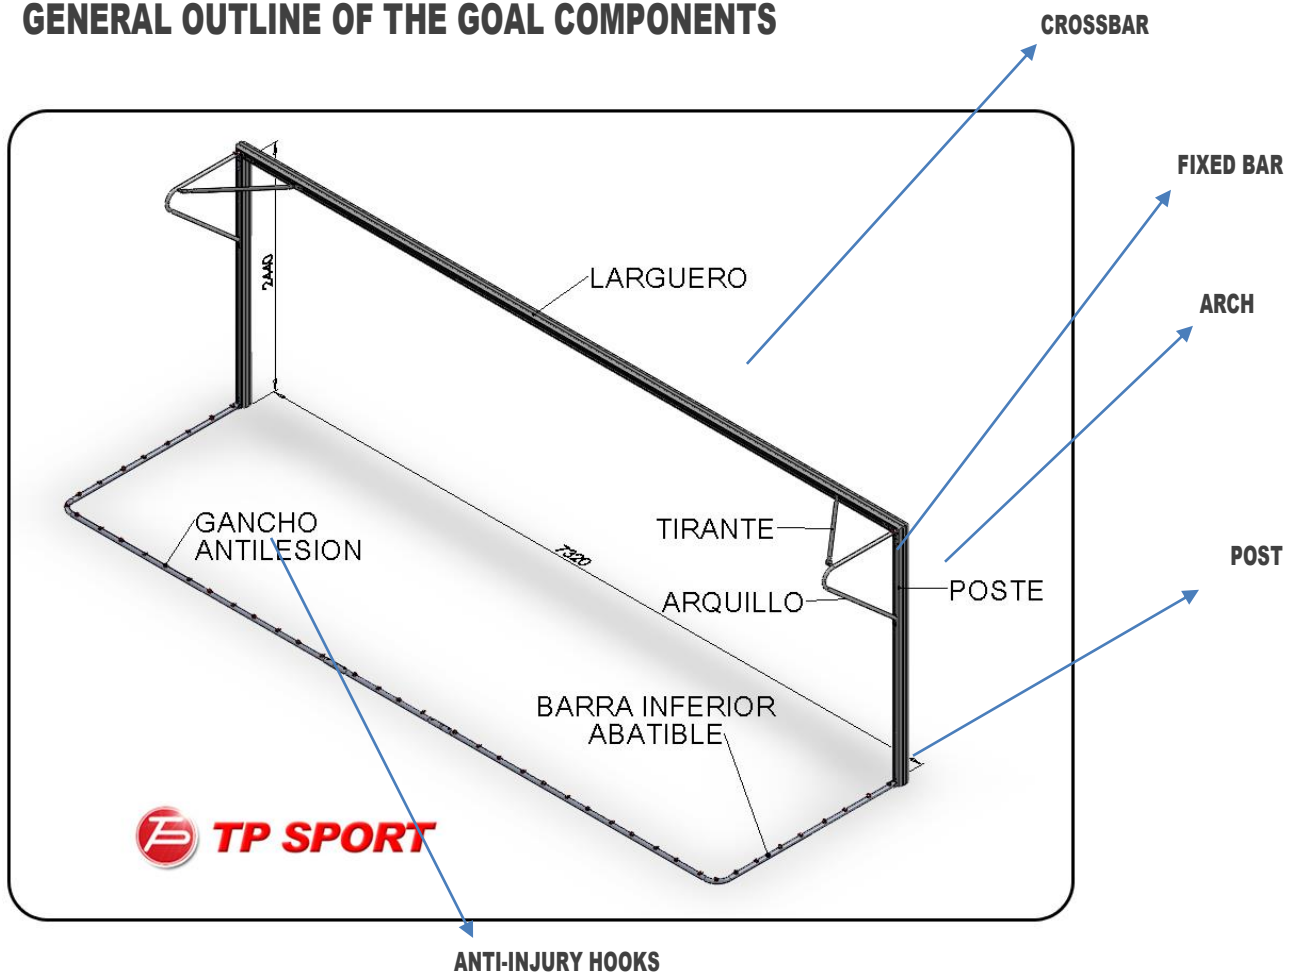

DESCRIPTION

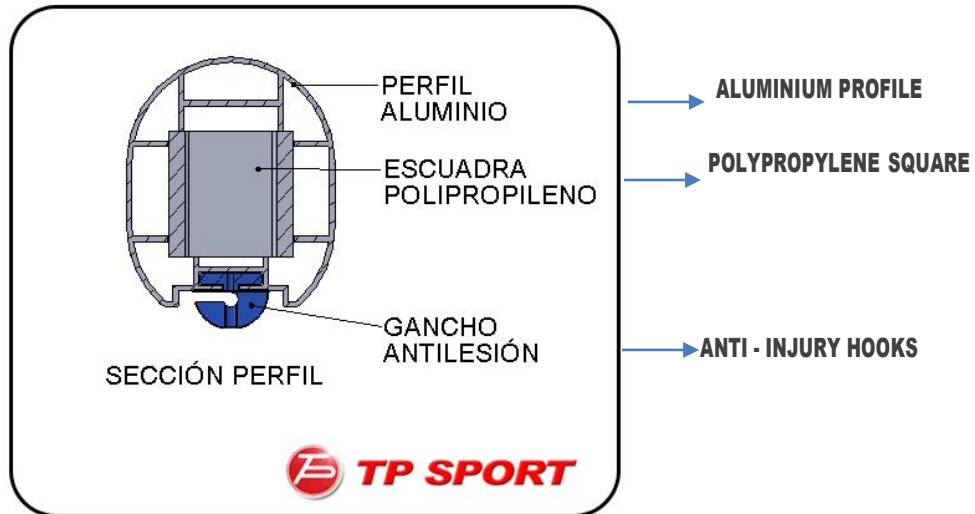

TP soccer goals with regulatory measures, 7.35meters interior length per 2.44 meters of interior high.

Manufactured as per latest European norm EN748:2004, made of extruded aluminium tube Ø 90 x2 mm, as per norm EN AW, with interior reinforcement and with a rear slot where the hooks made of high-density polypropylene are place and which serve to fix the net

The goal consists of two posts and a crossbar fixed through metallic squares placed at the interior profile which provides a perfect fixing, and with the use of high resistance screws. Supplied with hooks made of high-density polypropylene, anti-injury and rounded. The hooks are placed so the net does not come out.
