

# POLYPROPYLENE SEATS TP SPORT

REF. TP SPORT B-92 SG

## DESCRIPTION

Mono bloc seat, with 350 mm back height, over grandstand installation, 430mm wide and 475 deep with drainage system. Anatomic Shell injected in High-impact Polypropylene with antistatic and UV treatment for outdoor use. Direct fixation by means of two contact points over grandstand.

## TECHNICAL CHARACTERISTICS

- Light Resistance Additive anti UV DIN 54003
- Complies with UEFA and FIFA regulation.
- Test BS 4875
- 100% Recyclable, HD High-quality Polypropylene.
- Fire behaviour classification M4 (M2, optional) UNE 23727.
- Bending strength according to standard DIN 53455
- CHARPY impact resistance according to norm: :DIN 53453
- Hardness according to norm ISO868 :( 65 Shore D).
- Traction resistance according to norm: UNE EN ISO 527 parte 1,2 y 3 (20N/mm)
- Elongation at break: (VN50mm/min) 600%.
- DIN 54003 (1-8) results 8 (excellent) in photometric scale additives for raw materials compliance with: resolution 4/11/1982 Spanish Ministry of Health resolution AP (89) from the European Congress Spanish norm: UNE 93-011-83/ part III European norm EN 71, part 3 legislative act from 24/04/1997, nº11/1997, chapter V, article 13, which establishes the maximum concentration of Lead, Cadmium, Mercury and Hexavalent Chromium directive 94/62/CE of the European department and the European Council 20/12/1994.
