

# POLYPROPYLENE SEATS TP SPORT

REF. TP SPORT S-97 SG

## DESCRIPTION

Seat with 300 mm back height, 420 mm wide and 385mm deep, over grandstand and telescopic grandstand installation. Mono bloc, self-bearing Shell seat molded by injection with direct fixation with two contact point over grandstand. Shiny surface, sealed around the whole of perimeter to prevent dirt from accumulating inside the seat, easy cleaning.

## TECHNICAL CHARACTERISTICS

- Light Resistance Additive anti UV DIN 54003
- Complies with UEFA and FIFA regulation
- 100% Recyclable, HD High-quality Polypropylene.
- M4 Fire resistance according to norm UNE 23727
- Bending strength according to standard DIN 53455
- CHARPY impact resistance according to norm: :DIN 53453
- Hardness according to norm ISO868 :( 65 Shore D).
- Traction resistance according to norm: UNE EN ISO 527 parte 1,2 y 3 (20N/mm)
- Elongation at break: (VN50mm/min) 600%.
- DIN 54003 (1-8) results 8 (excellent) in photometric scale additives for raw materials compliance with: resolution 4/11/1982 Spanish Ministry of Health resolution AP (89) from the European Congress Spanish norm: UNE 93-011-83/ part III European norm EN 71, part 3 legislative act from 24/04/1997, n°11/1997, chapter V, article 13, which establishes the maximum concentration of Lead, Cadmium, Mercury and Hexavalent Chromium directive 94/62/CE of the European department and the European Council 20/12/1994.
